

**Suh Edmond Neba**

Buea, South West, Cameroon

Telephone: +237 673660071

Email: [suhedmond25@yahoo.com](mailto:suhedmond25@yahoo.com)

**Experience****Full-Stack Developer Intern, Go-Groups Ltd, Cameroon Aug 2021-Present**

Designed, developed and documented a Java Library for converting HTML contents to pdf documents and wrote Tests. This library facilitated other developers to easily develop applications that require working with HTML and Pdf. (Java, JUnit, Scrum framework) .

Worked in a team to develop a File Storage Web application that enabled the company to have a centralized file store for managing files in their different applications. Built reusable Angular components, consumed the REST APIs.

developed and wrote tests for a single endpoint to zip directories. (Spring boot, JUnit and Mockito, Angular, Microsoft Teams, Scrum framework ).

Lead my team to develop an Article Blog Web Application that manages articles and publishers.

Designed and implemented the database in MySQL, create REST APIs for article service, used Angular to consume REST APIs (Spring boot, Angular, Microsoft Teams, Scrum framework ).

**Full-stack Developer, Pharmafast, Cameroon Jan-Aug 2021**

Worked in a team of three as a full-stack developer to build a hybrid application (Android, SPA) that manages pharmacies in Cameroon.

Built reusable Quasar components and was mainly in charge of frontend architecture (Typescript, Quasar, Slack, Jira, Scrum framework). By August, with the android application we built, Pharmafast won in a US-based competition and was mentioned in several local newspapers.

**Full-Stack Developer Nishang Systems July 2021**

I joined a team of three as a full-stack developer to build a School Management System which is presently being used in Sabibi Comprehensive High School Tiko in Cameroon (Laravel, Bootstrap, MySQL).

Implemented Boarding fee payment and generated payment statistics per class, Implemented award of scholarships to students and generated scholarship reports

**Others****Learning Management System January 2022 -Present**

A small learning management system I am currently developing using Microservice Architecture with Springboot, Springcloud and Docker. [Github Link](#)

**Education****B.Sc. in Computer Science, University of Buea, Cameroon (GPA: 3.36 / 4.0) 2017-2020****Professional Certificate**

Go-Groups Ltd Hands-on Summer 2021 Training in Java, Springboot, Docker, Unit Testing and RestFul API Development Best Practices (2021, On-site Training)

**Technical Skills:** Java, PHP, SQL, Javascript, Typescript, Laravel, Vuejs, Spring and Spring Boot, Angular, Java 8
